

FOR VCS & ACCELERATORS

Your portfolio's fundraising expert in residence

I embed with your portfolio and work with your founders 1:1, pre-seed through Series A, so more of your companies run a real process and raise faster, without adding load to your platform team.

THE LIFTED PARTNER PROGRAM

Every fund has this gap

Fundraising is a full-time strategic job for your founders, and platform teams typically have time for a handful of investor intros and nothing beyond that. Lifted closes that gap with 1-on-1 coaching through every stage of the raise.

What your fund gets:

01 Free office hours across your portfolio

Any founder you back can book time with me, raising now or a year out, at no cost to them or to you. Plus quarterly portfolio workshops, where we set up your entire portfolio for success.

02 Better outcomes, better returns

Founders who run a real process raise faster and at stronger terms. That flows straight into your markups and follow-on. No gimmicks, just a methodology that has landed over \$100M in the last three years.

03 Off your platform team

I give your founders' raises the focused attention they need so your team doesn't have to. I lean into the time-consuming activities like pitch practice, collateral proofing, bespoke raise strategy, etc.

04 Founder-friendly pricing

For founders who want a co-pilot through the whole raise, I take a small retainer and push the majority of what I charge post-raise, with no equity.

Every founder you send gets a straight answer on the first call, including the times the honest answer is to wait a quarter. Your referral is your reputation. I treat it that way.

WHAT YOUR FOUNDERS GET

When founders choose to work with Lifted, they get...

It starts with a free call, and for the founders who want a coach through the whole raise, this is what the work looks like.

01 Free office hours to start. Any founder in your portfolio, raising now or a year out.

02 A weekly working session. A brief before, action items after, agenda set by their live pipeline.

03 A private Slack channel and ad hoc calls. A term sheet lands or an investor goes quiet, they drop it in and we get on a call.

04 An investor list we build together. Their list, made sharp and big enough to run a real process.

05 A story that lands in two minutes. Problem first, plain English, then mock investor sessions until the hardest question is one they've already answered.

06 A raise built for speed. First meetings stacked into a tight window so investors move at the same time.

07 Backup when terms land. We read the offer together and negotiate from upside.

08 Everything in one place. A private dashboard at app.lifted.vc, investor CRM, and full transcripts of every session.

"Adam didn't just give me coaching, he gave me a process. One that replaced guesswork with clarity, confidence, and precision."

PRE-SEED FOUNDER

Most Lifted founders are referred by their existing investors.
