Lifted

Adam Roberts · adam@lifted.vc · lifted.vc

Raise your round like a repeat founder

I'm a YC alum (S14) who raised my own company, Paid Labs, from top tier Silicon Valley VCs before it was acquired. Since launching Lifted, I've coached 100+ founders from pre-seed through Series A, and they've gone on to raise from Y Combinator, Bessemer, Felicis, a16z Speedrun, Techstars, and many more. VCs like Rebel Fund and NFX now bring me in to help their portfolio companies raise.

The method

Experienced founders craft a story built for how investors take in information, line up quality warm intros at volume, and schedule every meeting compressed into one decisive window. I've turned that pattern into a system I call Authentic FOMO that generates real demand, engineered honestly, and we'll run it together.

1. **Build a narrative that resonates with investors.** Investors decide in the first minutes, so we build your narrative the way they listen: problem first, conclusion first, plain English. We pressure-test it in mock sessions until we know it lands, and make sure you're ready for anything in Q&A.
2. **Engineer warm access at volume.** Cold outreach to investors doesn't convert, so we never do it. We craft a high-fit target investor list and network our way into quality introductions to every investor on it. No founder is born with an investor network, and we'll build yours.
3. **Compress meetings for leverage.** We stack every first meeting into a compressed window. When a dozen funds are moving at once, the urgency is real and investors can feel it. We lock in the yeses, respect the nos, kill the maybes, and operate with leverage.

What you get

- **Weekly 1-on-1 sessions**, each ending with action items
- **A private Slack channel** for quick action between calls
- **A tiered target investor list**, because a tight list of real fits beats a long list of maybes
- **Your story, one-pager, deck, and data room**, drilled in mock investor sessions
- **Term sheet negotiation**, so you know what to push on, what to give, and when to walk
- **A private dashboard** at app.lifted.vc with your pipeline, investor CRM, and session transcripts

Priced to your round

Stage	Monthly retainer	Engagement total
Pre-seed	$1,250 / mo	$12,500
Seed	$1,500 / mo	$15,000
Series A	$2,000 / mo	$20,000

Your monthly payments count toward the total, and the remaining balance is due only when you close your round. No equity, ever, and it's month to month. If it's not working, we'll both know.

I've been exactly where you are

Before tech, I spent five years on the USA Sailing Team racing the 470 internationally, which is where I learned to prepare obsessively and perform under pressure. After selling Paid Labs, I ran sales at Zinc, became an EIR at Wefunder, and led partnerships at Metal. Along the way I rediscovered what I love: helping founders turn a messy, terrifying process into something methodical and winnable.

What founders say

> "Adam didn't just give me coaching, he gave me a process. One that replaced guesswork with clarity, confidence, and precision."
> Leni, pre-seed founder

> "10/10. I wish I had found it even earlier, it would have saved me at least 100 hours and $20K+."
> Misha, coached founder

Start with a free consultation. An honest read on where you are and what would unblock your raise. Candid, conversational, and no strings attached.
