

FOR VCS & ACCELERATORS

Your portfolio's fundraising expert in residence

I embed with your portfolio and work with your founders 1:1, pre-seed through Series A, so more of your companies run a real process and raise faster, without adding load to your platform team.

THE LIFTED PARTNER PROGRAM

Every fund has this gap

Fundraising is a full-time strategic job for your founders, and platform teams typically have time for a handful of investor intros and nothing beyond that. Lifted closes that gap with 1-on-1 coaching through every stage of the raise.

What your fund gets:

01 Free office hours across your portfolio

Any founder you back can book time with me, raising now or a year out, at no cost to them or to you. Plus quarterly portfolio workshops, where we set up your entire portfolio for success.

02 Better outcomes, better returns

Founders who run a real process raise faster and at stronger terms. That flows straight into your markups and follow-on. No gimmicks, just a methodology that has landed over \$100M in the last three years.

03 Off your platform team

I give your founders' raises the focused attention they need so your team doesn't have to. I lean into the time-consuming activities like pitch practice, collateral proofing, bespoke raise strategy, etc.

04 Founder-friendly pricing & Partner Discount

For founders who want a co-pilot through the whole raise, I take a small retainer and push the majority of what I charge post-raise, with no equity. I also offer exclusive discounts as part of our partnership.

WHAT YOUR FOUNDERS GET

When founders choose to work with Lifted, they get...

Any founder in your portfolio can start with free office hours. For the ones who want a co-pilot through the whole round, this is the work, week by week from prep to close: the tactical mechanics, the strategy, and the mental side of raising, kept succinct and direct.

01 Weekly 1-on-1 sessions. We run the raise like an operating cadence, and every session ends with action items.

02 Slack and ad hoc calls in between. A term sheet comes in or an investor sends a vague email. They have a private Slack channel with me for quick action.

03 A target investor list we build together. Who invests at their stage and in their space, and who is actually deploying right now.

04 Narrative, collateral, and pitch reps. Story, one-pager, deck, and data room, drilled in mock investor sessions until it holds up.

05 A warm-intro pipeline. Every investor on the list mapped to a connector. No founder is born with a network, and we build theirs.

06 Momentum that closes rounds. First meetings stacked into a compressed window so a dozen funds are moving at once.

07 Term sheet negotiation. We read offers together and negotiate with leverage.

08 The whole raise in one place. A private dashboard at app.lifted.vc, investor CRM, and full transcripts of every session.

“Adam didn't just give me coaching, he gave me a process. One that replaced guesswork with clarity, confidence, and precision.”
